INDEPENDENT AUDITOR'S REPORT

October 2, 2005

The Board of Education Rockford Public Schools

We have audited the accompanying financial statements of the governmental activities, the major fund and the aggregate remaining fund information of Rockford Public Schools (the "District") as of and for the year ended June 30, 2005, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's elected officials and management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, the major fund and the aggregate remaining fund information of Rockford Public Schools as of June 30, 2005, and the respective changes in financial position thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 2, 2005 on our consideration of Rockford Public Schools' internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Management's Discussion and Analysis is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements of Rockford Public Schools. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Hunger ford, Aldin, Vichol Herten, P.C.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Rockford Public Schools ("the District"), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2005. We encourage readers to consider the information presented here in conjunction with the District's financial statements, which immediately follow this section.

Overview of the Financial Statements

This annual report consists of three parts: Management's Discussion and Analysis (this section), the Basic Financial Statements and Supplemental Information. The Basic Financial Statements include two kinds of statements that present different views of the District:

- The first two statements, the Statement of Net Assets and the Statement of Activities, are *district-wide financial statements* that provide both short-term and long-term information about the District's overall financial status.
- The remaining statements are *fund financial statements* that focus on individual parts of the District, reporting the District's operations in more detail than the district-wide statements.
 - Governmental funds statements tell how basic services such as regular and special education were financed in the short term as well as what remains for future spending.
 - *Fiduciary funds statements* provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.

The Basic Financial Statements also include Notes to Basic Financial Statements that explain the information in the Basic Financial Statements and provide more detailed data. Supplemental Information follows and includes combining and individual fund statements.

District-wide Statements

The district-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two district-wide statements report the District's net assets, and how they have changed. Net assets - the difference between the District's assets and liabilities - is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net assets are an indicator of whether its financial
 position is improving or deteriorating, respectively.
- To assess the District's overall health, one should consider additional non-financial factors such as changes in the District's property tax-base, economic factors that might influence state aid revenue, and the condition of school buildings and other facilities.

In the district-wide financial statements, the District's activities are presented as follows:

• Governmental activities: The District's basic services are included here, such as regular and special education, instructional support, transportation, administration, community services, food service and athletics. State aid and property taxes finance most of these activities.

Condensed District-Wide Financial Information

The Statement of Net Assets provides financial information on the District as a whole.

	2005	2004
Assets		
Current assets	\$ 20,808,911	\$ 18,892,642
Capital assets, net book value	69,341,294	72,218,571
Total Assets	90,150,205	91,111,213
Liabilities		
Current liabilities	18,038,781	18,831,420
Long-term liabilities	104,974,831	110,311,957
Total Liabilities	123,013,612	129,143,377
Net Assets		
Invested in capital assets, net of related debt	(39,017,681)	(42,292,227)
Restricted	708,656	11,786
Unrestricted	5,445,618	3,576,913
Total Net Assets	\$ (32,863,407)	\$ (38,032,164)

The results of the fiscal year's operations for the District as a whole are presented in the Statement of Activities, which shows the change in total net assets for the year.

The Statement of Activities presents changes in net assets from operating results:

	2005	2004
Program Revenues		
Charges for services	\$ 3,658,594	\$ 4,105,145
Operating grants	6,580,808	4,431,340
General Revenues		
Property taxes	16,719,759	14,698,161
State school aid, unrestricted	47,703,000	47,372,784
Interest earnings	223,114	88,309
Gain on sale of capital assets	5,451	339,960
Other	701,120	514,066
Total Revenues	75,591,846	71,549,765
Expenses		
Instruction	36,718,270	35,982,357

Food service	2,078,745	1,896,860
Athletics	1,221,339	1,242,649
Other	2,516	
Interest on long-term debt	5,215,052	6,296,705
Depreciation – unallocated	111,332	111,932
Total Expenses	70,423,089	68,422,832
Increase (decrease) in net assets	5,168,757	3,126,933
Net Assets - Beginning of Year	(38,032,164)	(41,159,097)
Net Assets - End of Year	\$(32,863,407)	\$ (38,032,164)

Financial Analysis of the District as a Whole

The District's financial position is the product of many factors. Growth during the year in taxes and students contributed to a revenue increase. Fiscal 2005 was the initial year for the assement of the Parks and Recreation Millage and the increase in the county wide special education enhancement millage which generated \$2.1 million.

The District's total revenues were \$75.59 million. Property taxes and unrestricted state aid accounted for most of the District's revenues, contributing 85% of the total. The remainder came from state and federal aid for specific programs, fees charged for services, interest earnings and other local sources.

The total cost of all programs was \$70.42 million. The District's expenses are predominantly related to instructing, caring for (pupil services) and transporting students (60 percent). The District's operation and maintenance services accounted for 8.8 percent of total costs.

Total revenues exceeded expenses by \$5,168,757 on the Statement of Activities, increasing Unrestricted Net Assets to \$5,445,618 at June 30, 2005.

The stability of the District's finances can be credited to careful monitoring of economic changes and appropriate cost-cutting measures to maintain programs during challenging economic times.

- The District has, for the fifth year, conducted a thorough budget analysis and has broken the budget down into specific components and the related expense. This has allowed the District to prioritize expenses, and also to identify where cuts could occur if necessary.
- Board and Administration agreed that it was important for employees, and community members to understand the finances of the District. To accomplish this, central office administrators held budget meetings with all staff members, parents, and community members to share information about how schools are funded, how budgets are prepared, and what budgetary concerns were for the current year and into the future. They sought input on increasing revenues and reducing expenses.
- Regular updates were provided to the Board of Education during the school year. As Board meetings are recorded, many community members received the same updated budget information.
- Board and Administration enjoys a professional relationship with the union groups employed by Rockford Public Schools. As a result, recent contract settlements include a switch to a more cost effective health insurance plan which reduced health care cost by approximently \$650,000.
- During fiscal year 2005 the District refinanced \$34.9 million of its 1997 bond issue. This will result in a reduction in annual debt service payments of \$4.6 million over the life of the new debt.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds - not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. As a general rule, fund balances from one fund are prohibited from being expended on expenditures of another fund.

The District utilizes two kinds of funds:

- Governmental funds: Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, additional information following the governmental funds' statements explain the relationship (or differences) between them.
- Fiduciary funds: The District is the trustee, or fiduciary, for assets that belong to others, such as Scholarship and Student Activities Funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the district-wide financial statements because it cannot use these assets to finance its operations.

Financial Analysis of the District's Funds

The District uses funds to record and analyze financial information. Rockford Public School's funds are described as follows:

Major Fund

• The General Fund is our primary operating fund. The General Fund had total revenues of \$62,361,118, total expenditures of \$59,809,953 and other financing uses of \$677,975. The General Fund ended the fiscal year with an undesignated fund balance of \$5,547,978, up from \$3,674,788 at June 30, 2004, due primarily to the assessment of the Parks and Recreation and county wide Special Education Millages during fiscal year 2005, along with careful monitoring of expenditures.

Nonmajor Funds

- The Food Service Fund, which administers the hot lunch program of the District, had total revenues of \$1,900,700 and total expenditures of \$1,987,041 in 2004-05, decreasing its fund balance to \$72,724 at June 30, 2005.
- The Athletics Fund, which administers the athletic program of the District, had total revenues of \$364,378, expenditures of \$1,039,837 and transfers from the General Fund of \$675,459 during the 2004-05 fiscal year. Fund balance at year end remained at zero.
- The District operates six Debt Service Funds to finance the repayment of general obligation bonds. Total revenues were \$10,816,668, with total expenditures of \$9,769,745. The ending fund balances totaled \$1,513,260.
- There is one Capital Projects Fund incorporated into the financial statements of the District, the 1997 Construction Fund. Total revenue from interest earnings was \$99 and expenditures were \$8,970. The ending fund balance was zero.
- The Scholarship Fund is operated as a Private Purpose Trust Fund of the District. The assets of this fund are being held for the benefit of District students. Balances on hand at June 30, 2005 totaled \$373,243.
- The Student Activities Fund is operated as an Agency Fund of the District. The assets of this fund are being held for the benefit of District students. Balances on hand at June 30, 2005 totaled \$513,382.

General Fund Budgetary Highlights

Over the course of the year, the District continuously reviews the annual operating budget after the June adoption. Changes in the budget are due to the following:

• Amendments made in January to account for the final student enrollment that determines how much foundation grant state school aid will be received during the fiscal year and reductions in state school aid due to State of Michigan budgetary reductions.

- Final amendments made in June for increases in appropriations to prevent budget overruns and reductions in expenses put into place by the administration.
- The final budget for the General Fund anticipated undesigned fund balance to be 7.55% of General Fund expendutures the actual results equaled 9.56%.
- The actual increase in fund balance was higher than expected due to a combination of an increase in revenues from Community Services and a reduction of health care costs.

Capital Asset and Debt Administration

Capital Assets

By the end of 2005, the District had a \$106,522,050 investment in a broad range of capital assets, including land, school buildings, athletic facilities, vehicles, computer equipment and software, and administrative offices. (More detailed information about capital assets can be found in the Notes to Basic Financial Statements.)

At June 30, 2005, the District's investment in capital assets (net of accumulated depreciation), was \$69,341,294. Capital asset purchases totaled \$168,334 for the fiscal year with accumulated depreciation increasing \$3,045,611, leaving a net reduction in the book value of capital assets of \$2,877,277.

The District's investment in capital assets (net of accumulated depreciation), including land, land improvements, buildings, vehicles and furniture and equipment is detailed as follows:

\$ 1,392,503
1,831,570
60,533,686
4,232,594
1,350,941
\$ 69,341,294

The District's "investment in capital assets, net of related debt" is a negative \$39,017,681 at June 30, 2005, resulting from the fact that significant amounts of new technology-related equipment which fall under the \$5,000 capitalization threshold of the District were purchased with the proceeds of recent bond issues and the necessity of the District to borrow from the State of Michigan's School Bond Loan Fund to finance current principal and interest repayment requirements due to statutory limitations on debt service property tax levies.

Long-Term Debt

At year end, the District had \$108.7 million in general obligation bonds and other long-term debt outstanding – a net reduction of \$5.8 million from June 30, 2004. The District advance refunded \$36,075,000 of its outstanding 1997 bond issue during the year resulting in a net present value savings of \$2,931,306 in future interest costs.

The District bond rating for general obligation debt remains at "A3". The State limits the amount of general obligation debt that schools can issue to 15 percent of the assessed value of all taxable property within a District's boundaries. The District's other obligations include borrowings from school bond loan fund, installment purchase agreements, early retirement incentive and accumulated sick leave. We present more detailed information about our long-term liabilities in the Notes to Basic Financial Statements.

Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the District was aware of the following circumstances that could significantly affect its financial health in the future:

- Voters with Rockford Public Schools approved a Park and Recreation Millage effective in June of 2004.
 This will result in annual revenue increase of approximately \$1,300,000 for the District in fiscal year
 2005-06.
- Fiscal year 2005-06 foundation allowance has increased to \$175 for a total of \$6,875 per student. This marks the first time in over three years the student foundation allowance has started above \$6,700.
- Recent contract settlements have produced a more cost effective prescription drug plan which will save the District approximently \$600,000 in fiscal year 2005-06.
- For every dollar paid to employees throughout the year, the District pays a percentage into the Michigan Public Schools Employee Retirement System (MPSERS). The rising cost of this expense, controlled by the State, is a significant cause for concern into the future. In 2004-05, the District paid 14.87% of every dollar of payroll into the MPSERS. This amount will increase to 16.34% in 2005-06 and is projected to increase to nearly 19% in 2006-07.

Contacting the District's Financial Management

This financial report is designed to provide the District's citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Business Office, Rockford Public Schools, 350 N. Main Street, Rockford, 49341.

Total Other Financing Sources (Uses)	(677,975)	309,799	368,176
Net Change in Fund Balances	1,873,190	586,051	2,459,241
Fund Balances, Beginning of Year	3,910,788	999,933	4,910,721
Fund Balances, End of Year	\$ 5,783,978	\$ 1,585,984	\$ 7,369,962

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the year ended June 30, 2005

Net change in fund balances - total governmental funds	\$ 2,459,241
Amounts reported for governmental activites in the Statement of Activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of these assets is capitalized and the cost is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period: Capital outlays	\$ 168,334
Depreciation expense	
As some delinquent personal property taxes will not be collected for several years after the District's fiscal year ends, they are not considered "available" revenues in the governmental funds, and are instead counted as deferred tax revenues. They are, however, recorded as revenues in the Statement of Activities.	62.065
	63,965
Proceeds from the sale of bonds or loans are an other financing source in the governmental funds, but increase long-term liabilities in the Statemen of Net Assets.	(35,371,699)
Net bond premium and refunding and issuance costs are not expensed but are amortized over the life of the new bond issue	(301,937)
Repayment of bond principal is an expenditure in the governmental funds, but it reduces long-term liabilities in the Statement of Net Assets and does not effect the Statement of Activities: Repayment of general obligation bonds Repayment of energy conservation notes Repayment of state school bond loan Repayment of installment purchase agreements Repayment of capital leases	39,516,586 120,000 1,170,000 300,323 38,773 41,145,682
Interest on long-term liabilities in the Statement of Activities differs from the amount reported on the governmental funds because interest is recorded as an expenditure in the funds when it is due and paid, and thus requires the use of current financial resources. In the Statement of Activities however, interest expense is recognized as the interest accrues, regardless of when it is paid.	13,228
In the Statement of Net Assets, early retirement incentive and accumulated sick leave are measured by the amounts earned during the year. In the governmental funds, however, expenditures are measured by the amount of financial resources used (essentially, the amounts actually paid). This year the amount of these benefits used/paid (\$205,436) exceeded the amounts earned (\$167,882).	
Total changes in net assets - governmental activities	\$ 5,168,757

NOTES TO BASIC FINANCIAL STATEMENTS

ROCKFORD PUBLIC SCHOOLS Notes to Basic Financial Statements June 30, 2005

Note A – Summary of Significant Accounting Policies

Rockford Public Schools was organized under the School Code of the State of Michigan and services a population of approximately 7,798 students. The District is governed by an elected Board of Education consisting of seven members and administered by a Superintendent who is appointed by the aforementioned Board. The District provides a comprehensive range of educational services as specified by state statute and Board of Education policy. These services include elementary education, secondary education, pre-school programs, athletic activities, special education, community services and general administrative services. The Board of Education also has broad financial responsibilities, including the approval of the annual budget and the establishment of a system of accounting and budgetary controls.

The financial statements of Rockford Public Schools (the "District") have been prepared in conformity with accounting principles generally accepted in the United States of America as applicable to school districts. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The more significant of the District's accounting policies are described below.

1 Reporting Entity

The financial reporting entity consists of a primary government and its component units. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate and is fiscally independent of other state or local governments. Furthermore, there are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity. Consequently, the District's financial statements include the funds of those organizational entities for which its elected governing board is financially accountable.

2. District-Wide and Fund Financial Statements

<u>District-Wide Financial Statements</u> - The district-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) present financial information about the District as a whole. The reported information includes all of the nonfiduciary activities of the District. The District does not allocate indirect costs and, for the most part, the effect of interfund activity has been removed. These statements are to distinguish between the *governmental* and *business-type activities* of the District. *Governmental activities* normally are supported by taxes and intergovernmental revenues, and are reported separately from *business-type* activities, which rely to a significant extent on fees and charges for support. The District does not have any business-type activities.

The Statement of Net Assets is presented on the classified basis and is reported on the full accrual, economic resource basis, which recognizes all long-term assets as well as all long-term debt and obligations. The District's net assets are reported in three parts: invested in capital assets, net of related debt; restricted net assets, and unrestricted net assets.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenues* include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Property taxes, unrestricted state aid, interest earnings and other items not included among program revenues are reported instead as *general revenues*.

ROCKFORD PUBLIC SCHOOLS Notes to Basic Financial Statements

June 30, 2005

Separate financial statements are provided for governmental and fiduciary funds, even though the latter are excluded from the government wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. The General Fund is the District's only major fund. Non-major funds are aggregated and presented in a single column.

<u>Fund Financial Statements</u> – Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Fund level statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances. The Balance Sheet reports current assets, current liabilities and fund balances. The Statement of Revenues, Expenditures and Changes in Fund Balances reports on the sources and uses of current financial resources. This differs from the economic resources measurement focus used to report at the district-wide level. Reconciliations between the two sets of statements are provided in separate statements.

Revenues are recognized when susceptible to accrual; i.e., both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days after the end of the current fiscal period. Expenditures are generally recorded when the liability is incurred, if they are paid within 60 days after the end of the current fiscal period. The exception to this general rule is that principal and interest on long-term debt is recognized when due.

Revenues susceptible to accrual are property taxes, state aid, federal and interdistrict revenues and investment income. Other revenues are recognized when received. Deferred revenue arises when a potential revenue does not meet both the measurable and available criteria for recognition in the current period. Deferred revenue also arises when resources are received by the District before it has a legal claim to them, as when grant monies are received prior to the incurrence of the qualifying expenditures.

3. Measurement Focus, Basis of Accounting and Financial Statement Presentation

District-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as is the fiduciary fund financial statement. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met.

The State of Michigan utilizes a foundation allowance approach, which provides for a specific annual amount of revenue per student based on a state-wide formula. The foundation allowance is funded from a combination of state and local sources. Revenues from state sources are primarily governed by the School Aid Act and the School Code of Michigan. The State portion of the foundation is provided from the State's School Aid Fund and is recognized as revenues in accordance with state law and accounting principles generally accepted in the United States of America.

Governmental Funds

Governmental funds are those funds through which most school district functions typically are financed. The acquisition, use and balances of a school district's expendable financial resources and the related current liabilities are accounted for through governmental funds.

Notes to Basic Financial Statements June 30, 2005

General Fund—The General Fund is the general operating fund of a school district. It is used to account for all financial resources, except those required to be accounted for in another fund. Included are all transactions related to the current operating budget.

Special Revenue Funds—Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted to expenditures for specified purposes.

School Service Funds—School Service Funds are used to segregate, for administrative purposes, the transactions of a particular activity from regular revenue and expenditure accounts. A school district maintains full control of these funds. The School Service Funds maintained by the District are the Food Service and Athletics Funds.

Debt Service Funds—Debt Service Funds are used to account for the accumulation of resources for, and the payment of, long-term debt (bonds, notes, loans, leases and school bond loan) principal, interest, and related costs.

Capital Projects Funds—Capital Projects Funds are used to record bond proceeds, property tax revenues or other revenues and the disbursement of monies specifically designated for acquiring new school sites, buildings, equipment and for major remodeling and repairs. The funds are retained until the purpose for which the funds were created has been accomplished.

The Capital Projects Funds include capital project activities funded with bonds issued after May 1, 1994. For these capital projects, the District has complied with the applicable provisions of Section 1351a of the State of Michigan's School Code.

Fiduciary Funds

Fiduciary Funds are used to account for assets held by a school district in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds. Fiduciary Fund net assets and results of operations are not included in the district-wide financial statements. Fiduciary funds are reported using the economic resources measurement focus. The District presently maintains a scholarship fund for the benefit of students.

Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District presently maintains a Student Activities Fund to record the transactions of student groups for school and school related purposes. The funds are segregated and held in trust for the students.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the district-wide and fiduciary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted as they are needed.

4. Budgets and Budgetary Accounting

State of Michigan Public Act 621 (the Uniform Budgetary and Accounting Act) requires that the General Fund of a school district be under budgetary control and that both budgeted and actual financial results do not incur a

Notes to Basic Financial Statements June 30, 2005

deficit. Rockford Public Schools has also adopted budgets for its Special Revenue Funds. A school district's Budget Appropriations Act (the "budget") must be adopted before the beginning of each fiscal year. No violations (dollar deviations) from a district's budget may occur without a corresponding amendment to the budget. A school district has the ability to amend the budget provided that the amendment is prior to the occurrence of the deviation and prior to the fiscal year-end. A school district may also permit the chief administrative or fiscal officer to execute transfers between line items, within defined dollar or percentage limits, without prior approval of the Board of Education. Expenditures may not legally exceed budgeted appropriations at the fund level. All appropriations lapse at the end of the fiscal year.

Rockford Public Schools utilizes the following procedures in establishing the budgetary data reflected in the financial statements:

- Starting in the spring, District administrative personnel and department heads work with the Superintendent
 and Associate Superintendent for Business to establish proposed operating budgets for the fiscal year
 commencing the following July 1.
- In June, preliminary operating budgets are submitted to the Board of Education. These budgets include proposed expenditures and the means of financing them.
- Prior to June 30, a public hearing is held to obtain taxpayer comments on the proposed budgets.
- After the budgets are finalized, the Board of Education adopts an appropriations resolution setting forth the
 amount of the proposed expenditures and the sources of revenue to finance them. These amendments were
 not significant to the total budgets.
- The original General and Special Revenue Funds budgets were amended during the year in compliance with State of Michigan Public Act 621 (the Uniform Budgetary and Accounting Act).
- Budgets for the General and Special Revenue Funds were adopted on the modified accrual basis of accounting, which is consistent with generally accepted accounting principles.

5. Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budget integration in the governmental funds. There were no substantial encumbrances outstanding at year end.

6. Investments

Investments are recorded at fair value, based on quoted market prices, or estimated fair value. Investment income is composed of interest and net changes in the fair value of applicable investments.

7. Inventory

Inventories are valued at cost (first-in, first-out). Inventories of the General Fund consist of teaching and custodial supplies. Inventories of the Food Service Fund consist of food, unused commodities and other nonperishable supplies. Disbursements for inventory-type items are recorded as expenditures at the time of use for each fund.

Notes to Basic Financial Statements June 30, 2005

8. Capital Assets

Capital assets, which include land, land improvements, buildings, vehicles and furniture and equipment, are reported in the district-wide financial statements. Assets having a useful life in excess of one year and whose costs exceed \$5,000 are capitalized. Capital assets are stated at historical cost or estimated historical cost where actual cost information is not available. Donated capital assets are stated at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of an asset or materially extend an asset's useful life are not capitalized. Improvements are capitalized and depreciated over the remaining useful life of the related assets.

Land improvements, buildings and additions, vehicles and furniture and equipment are depreciated using the straight-line method over the following estimated useful lives:

Land improvements	10-20 years
Buildings and additions	40-50 years
Vehicles	5-10 years
Furniture and equipment	3-10 years

9. Long-Term Obligations

In the district-wide financial statements, long-term debt and other long-term obligations are reported as liabilities on the Statement of Net Assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds. Bonds payable are reported at the total amount of bonds issued.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuance are reported as other financing sources while discounts on debt issuance are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

10. Early Retirement Incentive/Accumulated Sick Leave

Early retirement incentive and accumulated sick leave at June 30, 2005 has been computed and recorded in the basic financial statements of the District. Eligible District employees who select early retirement are entitled to a termination leave payment based on their age and years of service. Employees who leave the District are also entitled to reimbursement for a portion of their unused sick days. At June 30, 2005, the accumulated liabilities, including salary related payments, (expected to be financed by General Fund revenues) for early retirement incentive and accumulated sick leave amounted to \$371,000 and \$326,602, respectively.

11. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for expenditures or are legally segregated for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

ROCKFORD PUBLIC SCHOOLS Notes to Basic Financial Statements June 30, 2005

12. Interfund Activity

Flows of cash from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers between governmental funds are eliminated in the Statement of Activities. Interfund transfers in the fund financial statements are reported as other financing sources/uses.

13. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note B – Cash Equivalents and Investments

The State of Michigan allows a political subdivision to authorize its Treasurer or other chief fiscal officer to invest surplus funds belonging to and under the control of the entity as follows:

- Bonds, bills, or notes of the United States; obligations, the principal and interest of which are fully guaranteed by the United States; or obligations of the State.
- Certificates of deposit, savings accounts, deposit accounts, or depository receipts of a financial institution, but
 only if the financial institution is a state or nationally charted bank or a state or federally chartered savings
 and loan association, savings bank, or credit union whose deposits are insured by an agency of the United
 States government and that maintains a principal office or branch office located in this State under the laws of
 this State or the United States.
- Commercial paper rated at the time of purchase within the 2 highest classifications established by not less than 2 standard rating services and that matures not more than 270 days after the date of the purchase.
- Securities issued or guaranteed by agencies or instrumentalities of the United States government.
- United States government or Federal agency obligation repurchase agreements.
- Banker's acceptances issued by a bank that is a member of the Federal Deposit Insurance Corporation.
- Mutual funds composed entirely of investment vehicles which are legal for direct investment by a school district in Michigan.
- Investment pools, as authorized by the surplus funds investment pool act, Act No. 367 of the Public Acts of 1982, being sections 129.11 to 129.118 of the Michigan Compiled Laws, composed entirely of instruments that are legal for direct investment by a school district in Michigan.

Notes to Basic Financial Statements June 30, 2005

Cash Equivalents

Depositories actively used by the District during the year are detailed as follows:

- 1. Independent Bank
- 2. Fifth Third Bank
- 3. Chase Bank One

Balances at June 30, 2005 related to cash equivalents are detailed in the Basic Financial Statements as follows:

Governmental Funds

\$ 2,278,016

Cash equivalents consist of bank public funds checking and savings accounts.

Custodial credit risk

Custodial credit risk is the risk that in the event of bank failure, the District's deposits may not be returned to the District. Protection of District cash equivalents and deposits is provided by the Federal Deposit Insurance Corporation. At year end, the carrying amount of the District's cash equivalents and deposits was \$2,278,016 and the bank balance was \$2,321,115. Of the bank balance, \$206,593 was covered by federal depository insurance and \$2,114,522 was uninsured.

Investments

As of June 30, 2005 the District had the following investments:

	Fair Value
Investment Pool Accounts:	
Michigan Liquid Asset Fund Plus	\$ 9,213,121

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a failure of the counterparty, the District may not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District minimizes custodial credit risk by limiting investments to the types of securities allowed by law.

Credit Risk

The District's investments in the Michigan Liquid Asset Fund investment pool were unrated.

Interest Rate Risk

The District minimizes interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market, and, investing operating funds primarily in shorter-term securities, liquid asset funds, money market funds, or similar investment pools and limiting the average maturity in accordance with the District's cash requirements.

Concentration of Credit Risk

The District's investment policy places no restrictions on the amount or percentage that may be invested in any one type of security.

Notes to Basic Financial Statements June 30, 2005

Foreign Currency Risk

The District in not authorized to invest in investments which have this type of risk.

Note C – State School Aid/Property Taxes

On March 15, 1994, the voters of the State of Michigan approved Proposal A, which increased the State Sales and Use Tax rates from 4% to 6% and established a State Education Tax at a rate of 6 mills on all property, except that which is exempt by law from ad valorem property taxes, and dedicated the additional revenues generated to Michigan school districts. The amount of 2004 ad valorem State Education Taxes generated within the Rockford Public School District, and paid to the State of Michigan, totaled \$7,479,304.

These additional State revenues pass through to Michigan school districts in the form of a per pupil "Foundation Allowance" paid on a "blended count" of District pupil membership in February, 2004 and September, 2004. The 2004-05 "Foundation Allowance" for Rockford Public Schools was \$6,700 for 7,775 "Full Time Equivalent" students, generating \$48,066,054 in state aid payments to the District of which \$8,746,249 was paid to the District in July and August, 2005 and included in "Due From Other Governmental Units" of the General Fund and Food Service Special Revenue Fund of the District.

Property taxes for the District are levied July 1 and December 1 (the tax lien dates) under a split-levy system by the City of Rockford and the Townships of Algoma, Cannon, Courtland, Grattan, Oakfield and the Charter Township of Plainfield, and are due 75 days after levy dates. The taxes are then collected by each governmental unit and remitted to the District. The County of Kent, through its Delinquent Tax Revolving Fund, advances all delinquent real property taxes at March 1 to the District each year prior to June 30. Delinquent personal property taxes receivable are detailed as follows:

		Debt	
Tax Year	General	Service	Total
2004	\$ 101,233	\$ 45,369	\$ 146,602
2003	102,937	48,753	151,690
2002	82,348	38,378	120,726
		_	
	\$ 286,518	\$ 132,500	\$ 419,018

Taxes uncollected after three years from the date of levy, unless material in amount, are written off the books of the District.

Section 1211(1) of 1993 PA 312 states that beginning in 1994, the board of a school district shall levy not more than 18 mills, if approved by voters, for school operating purposes, or the number of mills levied in 1993, whichever is less, on non-homestead property only, in order to be eligible to receive funds under the State School Aid Act of 1979. After 1996, electors may approve a 3 mill "Local Enhancement Millage" which must be shared between all local districts in each respective county intermediate district.

As Rockford Public Schools' electors had previously (September 24, 1991) approved an operating millage extension, the 18 mill non-homestead property tax was levied in the District for 2004.

The District levied a 1.0 recreation millage and 8.50 mills for debt service purposes in 2004, applied on all taxable property in the District.

Notes to Basic Financial Statements June 30, 2005

Taxable property in the District is assessed initially at 50% of true cash value (at December 31) by the assessing officials of the various units of government that comprise the District. These valuations are then equalized by the county and finally by the State of Michigan, generating the State Equalized Valuation. Taxable valuation increases will be limited, or capped (known as capped valuation), at 5% or the rate of inflation, whichever is less. With the implementation of Proposal A, taxable property is now divided into two categories: homestead and non-homestead.

Homestead property is exempt from the 18 mill "School Operating" tax. It is not exempt from the 6 mill "State Education" tax, any voted "Local Enhancement Millage", nor any additional voted millage for the retirement of debt.

Non-homestead property is considered to be all property not qualifying for a homestead exemption, which includes all commercial and industrial property. Non-homestead property is subject to all District levies.

Note D – Interfund Receivables/Payables and Transfers

Amounts due from (to) other funds representing interfund receivables and payables for year end expenditure allocations not reimbursed at June 30, 2005 are detailed as follows:

	Due From	Due To
Major Fund		
General Fund:		
Food Service Fund	\$ 87,617	\$ 50,332
Athletics Fund	684	6,741
Total Major Fund	88,301	57,073
Nonmajor Funds		
Food Service Fund:		
General Fund	50,332	87,617
Athletics Fund:		
General Fund	6,741	684
Total Nonmajor Funds	57,073	88,301
Total All Funds	\$ 145,374	\$ 145,374

Transfers between funds during the year ended June 30, 2005 were as follows:

	Transfers In		Trai	nsfers Out
Major Fund				
General Fund:				
Athletics Fund	\$		\$	675,459
Nonmajor Fund				
Athletics Fund:				
General Fund		675,459		
Total All Funds	\$	675,459	\$	675,459

ROCKFORD PUBLIC SCHOOLS Notes to Basic Financial Statements June 30, 2005

The General Fund transfer to the Athletics Fund was made to pay the General Fund's share of support for the athletic program for the fiscal year.

Note E – Capital Assets

Capital asset activity for the year ended June 30, 2005 was as follows:

Balances July 1, 2004	Additions	Deductions	Balances June 30, 2005

	\$ 3,045,611

Note F – Short-term Debt

On August 20, 2004, the District repaid the \$7,400,000 August 21, 2003 State aid anticipation loan. On August 20, 2004 the District borrowed \$6,000,000, for cash flow purposes, in anticipation of State aid (interest at 1.57%) due in full on August 19, 2005. Total interest expense on the loans was \$118,592 for the fiscal year.

ROCKFORD PUBLIC SCHOOLS Notes to Basic Financial Statements June 30, 2005

Note G – Long-term Debt

Amounts available and to be provided for outstanding long-term debt at June 30, 2005 are summarized as follows:

The District is required to obtain loans from the Michigan School Bond Loan fund for the payment of the annual maturities of its general obligation bonds. There is no fixed maturity schedule for the repayment of these loans. Instead, the principal and interest are payable when taxes levied for debt service are no longer needed to retire bonded debt. During the year, \$496,697 of accrued interest was added to the District's liability to the Fund and the District repaid \$1,170,000 of its prior liability to the Fund. At June 30, 2005, the District owed the Fund a total of \$16,172,096.

ROCKFORD PUBLIC SCHOOLS Notes to Basic Financial Statements June 30, 2005

The annual requirements to pay principal and interest on long-term bonds, notes and installment purchase agreements outstanding are as follows:

Year Ended June 30	Principal	Interest	Total

Defeasance of Debt – On February 8, 2002 the District defeased 1997 general obligation serial bonds by placing the proceeds of newly issued bonds in an irrevocable trust to provide for all future debt service payments on the old bonds, with final payment scheduled on May 1, 2007. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. At June 30, 2005, \$12,250,000 of 1997 bonds outstanding is considered defeased.

On March 3, 2005, the District issued \$34,875,000 in general obligation bonds with a true interest cost of 4.1785635% to advance refund \$36,075,000 of outstanding 1997 general obligation bonds with an effective interest rate of 5.3754991% resulting in a net present value savings of \$2,931,306. The net proceeds (\$38,561,368 after the net premium of \$2,786,368 and the District contribution of \$900,000 and payment of \$447,585 in underwriting fees, insurance and other issuance costs) were deposited with an escrow agent and used to purchase United States government securities. Under the terms of the agreement these securities, together with the interest earned to maturity, will be sufficient to pay principal and interest as it becomes due. This procedure relieves the District from being primarily liable for the debt and the District is virtually assured of not being

ROCKFORD PUBLIC SCHOOLS

Notes to Basic Financial Statements June 30, 2005

required to make further payments with respect to the debt. These funds are not commingled with other funds and cannot be redeemed prior to maturity. Any excess funds will be returned to the District upon final payment of principal and interest (Scheduled to be May 1, 2007). This defeasance procedure allows the District to remove the related assets and liabilities from its financial statements, which it has done. The assets, now held by the escrow agent to be used for the remaining principal and interest due of \$39,878,138 on the defeased debt at June 30, 2005 are detailed in the following schedule:

	Cost	Market Value	Par Value	
U.S. Government Securities	\$37,370,862	\$37,370,862	\$37,370,862	

Note H – Retirement Plan

Substantially all District employees participate in the Michigan Public School Employees' Retirement System (MPSERS), a statewide, cost sharing, multiple employer defined benefit public employee retirement system governed by the State of Michigan. The District's payroll for employees covered by MPSERS for the year ended June 30, 2005 was \$35,003,844. A Basic Plan member may retire at age 55 with 30 or more years of credited service or at age 60 with 10 or more years of credited service. The annual retirement benefit, payable monthly for life, is equal to 1½ percent of a member's final average compensation multiplied by his/her number of years of credited service. Final average compensation is the employee's average salary over the last 5 years of credited service. Vested employees may retire at or after age 55 with 15 years of service and receive reduced retirement benefits.

School districts in the State of Michigan are required to contribute at a rate, annually determined by the State of Michigan, of covered employees' compensation to the MPSERS plan. The contribution rate was 12.99% for the fiscal year ending September 30, 2004 and 14.87% for the fiscal year beginning October 1, 2004. The District's contributions to the plan for the fiscal years ended June 30, 2005, 2004 and 2003 were \$5,170,654, \$4,593,008 and \$4,712,380, respectively.

The "actuarial accrued liability" is a standardized disclosure method of the present value of pension benefits, adjusted for the effects of projected salary increases and step-rate benefits, estimated to be payable in the future as a result of employee service to date. The measure, which is the actuarial present value of credited projected benefits, is intended to help users assess the MPSERS' funding status on a going concern basis, assess progress made in accumulating sufficient assets to pay benefits when due and make comparisons among public employee retirement systems and employers.

The MPSERS does not make separate measurements of assets and actuarial accrued liability for individual schools. The actuarial accrued liability at September 30, 2003 (the latest reporting date available expressed as \$ in millions) for the MPSERS as a whole, determined through an actuarial valuation performed as of that date, was \$44,769. The MPSERS' net assets available for benefits on that date were \$38,726 leaving an unfunded pension benefit obligation of \$6,043. Ten year historical trend information showing the MPSERS' progress in accumulating sufficient assets to pay benefits when due is presented in the September 30, 2004 Annual Report of the MPSERS, which may be obtained by contacting the System at P.O. Box 30171, Lansing, Michigan 48909-7671.

ROCKFORD PUBLIC SCHOOLS Notes to Basic Financial Statements June 30, 2005

The total actuarial accrued liability (expressed as \$ in millions) increased by \$2,812 from September 30, 2002 to September 30, 2003. Not included in the pension benefit obligation above is any future obligation attributable to health, dental and vision insurance benefits which are funded on a cash disbursement basis. With the passage of Act 279 of 1996, making permanent the cash basis financing of health, dental and vision benefits, actuarially calculated liabilities for these benefits are no longer disclosed on the balance sheets.

Prior to January 1, 1990, participating employees could elect coverage under either the noncontributory Basic Plan or the contributory Member Investment Plan (MIP). Effective January 1, 1990, all new employees are automatically enrolled in MIP. Participants in MIP, who receive benefits in addition to those available under the Basic Plan, contribute a percentage of salary. The graduated contribution rate is based on total wages and is calculated at 3% of the first \$5,000; 3.6% of the next \$10,000; and 4.3% of all wages over \$15,000. MIP members may retire at any age with 30 years of service, or at age 60 with 5 years of service, with benefits based on a final average compensation period of 5 years for members of the Basic Retirement Plan and 3 years for members of the MIP Retirement Plan.

Post-employment benefits for health, dental and vision insurance are available at retirement through the MPSERS. Retirees contribute an amount equivalent to the monthly cost for Part B Medicare and 10 percent of the monthly premium amount for the health, dental and vision coverage. Required contributions for post-employment health care benefits are included as part of the District's total contribution to the MPSERS as discussed above.

Note I – Risk Management and Benefits

The District is a member of the West Michigan Risk Management Trust, a self-insurance program with districts pooling together to insure property, liability and auto exposure. Premiums from members of the Trust are determined through standard underwriting procedures. The members of the Trust have contributed amounts sufficient to fund individual and aggregate losses up to \$175,000 and \$865,000, respectively, on an annual basis. Excess insurance has been purchased to cover claims exceeding those amounts. A \$1,000 per occurrence deductible for property losses is maintained. The District paid \$287,571 in premiums to the Trust for the year ended June 30, 2005.

The District is also a member of the West Michigan Workers' Compensation Fund, a self-insurance program with 19 districts pooling together to insure workers' compensation and employers' liability exposures. The Fund pays the first \$300,000 of any workers' compensation or employers' liability loss out of an \$800,000 loss fund collected from members. Excess insurance has been purchased to cover claims exceeding those amounts. As of June 30, 2005, there were no material pending claims against the District. The District paid \$299,295 in premiums to the Fund for the year ended June 30, 2005.

Health, life, and other employee insurance is provided by private insurance carriers. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

ROCKFORD PUBLIC SCHOOLS Notes to Basic Financial Statements June 30, 2005

Note J – Stewardship, Compliance and Accountability

The following District fund had actual expenditures exceed final budgeted expenditures for the year ended June 30, 2005, as follows:

The Board of Education Rockford Public Schools

The following comments pertain to our audit of the financial records of Rockford Public Schools as of and for the year ended June 30, 2005. The comments are made in accordance with Statement on Auditing Standards No. 61 "Communication With Audit Committees" which requires that in certain audits, certain matters are to be communicated to those who have responsibility for oversight of the financial reporting process. The communications required by this statement, if pertinent to the examination, are as follows:

- 1. Auditor's Responsibility Under Generally Accepted Auditing Standards.
- 2. Significant Accounting Policies.
- 3. Management Judgments and Accounting Estimates.
- 4. Significant Audit Adjustments.
- 5. Other Information in Documents Containing Audited Financial Statements.
- 6. Disagreements With Management.
- 7. Consultation With Other Accountants.
- 8. Major Issues Discussed With Management Prior to Retention.
- 9. Difficulties Encountered in Performing the Audit.
- 10. Uncorrected Misstatements (Passed Audit Adjustments).

The communications specified by this Statement are incidental to the audit and are not required to occur before, nor do they affect, our auditor's report on the District's financial statements.

Rockford Public Schools October 2, 2005 Page 2

The following are the matters to be communicated by SAS No. 61 based on our observations during the course of our audit of the financial statements and our review and evaluation of the internal control system of Rockford Public Schools:

Auditors Responsibility Under U.S. Generally Accepted Auditing Standards

As stated in our engagement letter, our responsibility, as described by professional standards, is to plan and perform our audit to obtain reasonable, but not absolute, assurance that the financial statements are free of material misstatement and are fairly presented in accordance with U.S. generally accepted accounting principles. Because an audit is designed to provide reasonable, but not absolute assurance and because we did not perform a detailed examination of all transactions, there is a risk that material misstatements may exist and not be detected by us.

In planning and performing our audit, we considered Rockford Public School's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. We also considered internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

As part of obtaining reasonable assurance about whether Rockford Public School's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit. Also, in accordance with OMB Circular A-133, we examined, on a test basis, evidence about Rockford Public School's compliance with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* applicable to each of its major federal programs for the purpose of expressing an opinion on Rockford Public School's compliance with those requirements. While our audit provides a reasonable basis for our opinion, it does not provide a legal determination on Rockford Public School's compliance with those requirements.

Significant Accounting Policies

Management has the responsibility for selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by Rockford Public Schools are described in Note A to the financial statements.

Difficulties Encountered In Performing The Audit

We encountered no significant difficulties in performing the audit of the financial statements of Rockford Public Schools for the year ended June 30, 2005. We found the internal control structure and accounting system to be basically adequate and operating in the manner intended.

Audit Adjustments

For purposes of this letter, professional standards define an audit adjustment as a proposed correction of the financial statements that, in our judgment, may not have been detected except through our auditing procedures. During the course of our audit the following adjustments of a significant nature were made to the accounting records of the District to bring the balances to those presented in the financial statements:

General Fund

1. \$92,275 to record 2004 delinquent personal property taxes receivable and \$47,973 to write off 2001 delinquent personal property taxes uncollected at June 30, 2005.

Proposed Audit Adjustments

There were no material adjustments proposed during the audit not recorded by Rockford Public Schools.

Suggestions And Recommendations

We offered suggestions and recommendations regarding the day-to-day operations of the accounting system of Rockford Public Schools to the Executive Director of Business Services and District accounting personnel as the topics arose during the course of our audit fieldwork. Hopefully, these suggestions will ease the day-to-day operations of the business office and assist in more efficient monthly and year-end financial record keeping and reporting.

Other Comments

The General Fund balance of the District increased by \$1,873,190 to \$5,783,978 at June 30, 2005. This balance represents approximately 8.90 percent of the District's 2005-06 expenditure budget, up from 6.54 percent at June 30, 2004. Maintaining a fund balance of at least 10 to 20 percent of the ensuing year's expenditure budget is advisable for Rockford Public Schools. This gives the District more stable operating funds during the year, helps avoid or reduce the necessity of borrowing for short-term cash flow purposes and acts as a buffer against the uncertainty of state aid revenues accruing to the District. In addition, employee benefit costs are expected to increase significantly in the next few years, which will require the use of fund balance reserves considering the expectation of small (or no) growth in state aid revenues.

Our audit this year was again completed under the requirements of Statement on Auditing Standards No. 99 "Consideration of Fraud in a Financial Statement Audit" (SAS No. 99), which requires both auditors and their clients to more directly and openly assess those areas within a school district that might be susceptible to fraudulent activity, which would normally include those areas outside the central office that handle cash, inventory, supplies, etc. This is an important audit standard that requires increased face-to-face discussions/interviews with client personnel and extensive documentation of our findings for future reference. We found that Rockford Public Schools has a very extensive network of internal controls within its accounting and record keeping system, and found those tested this year to be operating in the manner intended. Working with District business office personnel, we will be testing other control areas each year as a part of our audit, with suggestions and recommendations to follow the testing each year, to assist the District in maintaining and improving its systems.

This communication is intended solely for the information and use of the Rockford Public Schools Board of Education, administration and others within the organization. We have furnished a copy of this letter to the Michigan Department of Education as an enclosure with the audit report as required by the State of Michigan.

We appreciate the opportunity to provide financial auditing and advisory services to Rockford Public Schools and hope to continue to do so in the future. We also appreciate the dedication and cooperation of the District's administration and accounting personnel in performing their functions and in assisting us in completing ours. If there are any questions regarding the audit report, or the attached communications, we will be happy to address them.
